## THE NEW CONSERVATIVE LEADER IN ALBERTA

At an enthusiastic convention of delegates representing the Conservative party in the province which was held in Edmonton on August 5th, Mr. A. A. McGillivray, K.C., of Calgary was chosen as the lead of the provincial Conservatives, without one dissenting vote.

Mr. McGillivray is a native of New Brunswick, who after a distinguished scholastic career there came to Alberta eighteen years ago, and practised law for two years in Stettler. Fame came to him early, and at the end of two years he moved to Calgary where he still has a busy practice, and has been chosen as prosecutor for the Crown on several occasions, notably in the notorious Piacelli case.

The reason for this is not far to seek. Those who know the new leader best are the keenest to testify that while it may have been his brilliancy in argument and his tenacity of purpose which first won him fame as a King's counsel, yet more important still from the standpoint of those who have chosen him as a political head, is his clean record which is his straight forward integrity of the man himself. He takes his place at the head of the party not as a hackneyed politician seeking the favors of office with a string of party shibboleths as his sole stock in trade. Instead of this, it is a case of the office seeking the man, who, at considerable loss, has accepted it, not only as a good Conservative—which he is proud to call himself—but as a good citizen who realizes that the present lamentable financial standing of the province may be due, in part, to selfish indifference to responsibility on the part of the Albertan voter who votes his class, or his party, right or wrong.

Speaking of the appalling financial condition of the province, in connection with which he gave figures which showed Alberta to have the highest per capita debt in the Dominion. For while, when in office the Liberals had added a yearly debt to the province of \$5,521,000; the Greenfield administration had raised this debt to \$6,566,608 on an average. Or, in words, since coming to office they had increased the provincial public debt by \$1,045,608. He continued: "Surely then, we may with confidence appeal to that mass of people, who are not tied to the apron-strings of any party, to win with us, in provincial politics to put the Conservative party into power; not because they are Conservatives, but because they have hopes of extricating this province from the appalling financial condition created by reason of former and present administrative inefficiency."

Mr. McGillivray deplored the wilful partisanship of those who would confuse federal issues with (Continued on page seven)

## CROP REPORT

Issued by Department of Agriculture, Government of Alberta Edmonton, Monday, August 17th, 1925.

Harvesting of wheat became general in Southern Alberta about August 10th, and commenced in several districts in the Central and Northern parts during the past week. Wheat in the South is about 50 per cent. harvested and in Central districts about 25 per cent. is out. Cutting of barley and oats has begun in many districts.

Harvesting operations, however, have been seriously interrupted by rains which visited almost every district in the Province, commencing August 14th. In many districts these rains torrential, and the total precipitation throughout the Province was quite heavy. The weather is still showery, and it will be another week before harvesting can be resumed.

In the South the rain, of course has been of practically no value to the grain crops, since it has come too late to have any beneficial effect, save to aid in the filling of what wheat is not yet harvested. In the Central and Northern districts where the grain crops were still in process of maturing, the rain was of benefit in completing the filling process. Much of the wheat, however, had matured rapidly during the previous intense heat, and the percentage of the wheat crop benefitting from the rains therefore will be comparatively small. The heavy precipitation will be of greatest value to the late oats crop and the feed crops. These crops should be considerably improved by the rains, and the consequent yields increased.

Results from what little threshing has already been done in Southern Alberta bear out the statements contained in recent crop reports that the yields of wheat would be disappointing. Even in fields where yields were expected to be heavy, it has been found that the heads have not properly filled, and the yields are consequently much lower than anticipated.

In the South the new sugar beet crop has been greatly benefited by the late rains. Harvesting of this crop will commence about September 15, and the total yield of beets will be larger than at first estimated. The crop is expected to yield from 8 to 12 tons per acre, with some fields going as high as 15 tons.

The corn crop will be very satisfactory also this year. There is a considerable acreage in corn again although the increase has not been what had been earlier anticipated.

Harvest labor is available in sufficient number to meet present needs.

Complete data as to results of what threshing is now being done is being gathered.

## LOCAL HAPPENINGS

Miss Niven MacLennan of Edmonton is visiting with Mrs. H. G. Folkins and Mrs. Clynne.

We are sorry to report that Mrs. N. Doucette was taken to Edmonton to undergo an operation for appendicitis.

Born: To Mr. and Mrs. W. Day Thursday, August 20th a son.

Mrs. A. Sim of Edmonton arrived last Wednesday for a week's visit to her parents Mr. and Mrs. Wm. Cargill.

Mrs. J. A. MacKenzie of Wainwright was a visitor last week at the home of her parents Dr. and Mrs. H. G. Folkins.

J. S. Pelletier hauled the first load of wheat to Chauvin, August 21st. This was purchased by the Security elevator, and graded No. 2.

If you want a real nice sweater or pullover or a pair of heavy pants for winter wear, you cannot do better than at Saker's.

Mr. and Mrs. Alfred G. McLean of Saskatoon, have been visiting Mr. and Mrs. G. Gibb during the past week.

The Federal Elevator is now open for business. Your patronage would be very much appreciated by both the company and the manager, C. H. Bissett.

Mr. and Mrs. H. C. Bissett, Jr. will reside in the house recently occupied by Mr. and Mrs. Bissett, Sr.

Mr. George McArdie, of Vancouver, is spending a short time renewing acquaintanceships in this district. He is the guest of Mr. and Mrs. A. Herbert.

Miss Dorothy Saul started her duties as teacher at the Northern Crown school Monday last.

The school gong will sound again next Monday morning at the Chauvin public and high schools. Nothing like a full attendance right from opening for a successful term. Parents are requested to make every effort to send their children the first day, and every day of the term.

Our old friend the weather man is an inveterate joker. He is making a good start with his old annual—showers at harvest time. Cool weather, cloudy skies with showers are delaying both ripening and harvest operations. Yet considerable progress is being made with cutting; and some threshing has been done.

Mr. and Miss Gray, of Brookdale, Man., are visitors with the Newstead Bros.

(Continued on page five)

## W. L. A. NOTES

The Ladies Auxiliary of Westminster church will hold their monthly meeting on Thursday afternoon, September 10th at 3 o'clock at Mrs. Keith's home.

## DANCE BY BASKET BALL GIRLS REALIZED \$57

Success attended the efforts of the Chauvin Basket Ball Girls' team at the dance given by them last Friday, their object being to raise funds to enable them to make a trip to Red Deer for the purpose of competing for the Central Alberta Championship. Calgary, Edgerton and Ribstone were well represented, and the sum of \$57 dollars was realized.

Along with the money earned and by raising a sufficient fund the trip to Red Deer can be made possible. Thanks to those who attended.

School Books and School Supplies of all kinds at McKechnie's Drug and Stationery Store.

## SUCCESSFUL CALF CLUB

An outstanding feature of the Calgary Exhibition recently was the exhibit of baby beef in which class there was three entries. The animals were all of a very high class, and the competition was keen.

"Dangerous Money" a new Paramount Picture which will be shown at Chauvin next Monday, and Edgerton next Tuesday, is a picture which is sure to please. In it Bebe Daniels has her first role as a full-fledged star. It is the story of a poor girl who falls into a million and almost wrecks her firmlord love affair. Tom Moore heads the strong supporting cast. The picture is directed by Frank Tuttle, his first picture for Paramount—and you'll like it!

## EDUCATIONALISTS VISIT PROVINCE

A party of over fifty British educationalists, touring Canada under the auspices of the Overseas Educational League, visited Alberta the past week on their way through to the Pacific Coast. They spent a day in Calgary and will visit Edmonton on the return east.

The trouble with most people who have nothing to say is that it takes them such a long time to say it.

## RETURNS FROM ARCTIC

Baron Byng, Governor-General of Canada, returned on Saturday, August 15, from his trip to the Arctic circle. A special reception for him was held in Edmonton on his return.

Not all of our flappers are as bad as they're painted.

## BEEKEEPING IN SASKATCHEWAN IS INCREASING FAST

Dr. S. A. Merkeley, of Moose Jaw, secretary of the Saskatchewan Beekeepers' Association, has written as follows on the honey industry in Saskatchewan:—

Five years ago there were only twenty-three persons keeping bees in Saskatchewan, and today we have upwards of 600. And there is reason to believe that this number will be doubled before the end of another season, judging from the rapidly developing interest in the possibilities of bee-keeping in Saskatchewan.

Unlike other livestock on the farm, the bees are practically free from disease. The Saskatchewan Apiculture Act passed in 1924 prohibits the importation into Saskatchewan of bees on combs, unless they are accompanied by a certificate of health showing that they are free from that dread disease—foul brood. All importations of bees on combs from the United States are prohibited under all circumstances by special Act of the Federal government. He believes that Saskatchewan is the only province where the bees are brood and we hope to keep it so.

The bee experts in the United States have become greatly interested in our abundant honey yields and are making special investigations of the conditions which are making it possible for a colony of bees in Saskatchewan to store nearly double the amount of surplus honey in a few weeks than is stored by a colony in the warm southern States during the whole season. Mr. F. C. Pellett, of Hamilton, Ill., the associate editor of the American Bee Journal, made a trip through Saskatchewan in July, studying the conditions and possibilities here.

There are many contributing features which make it possible for our Saskatchewan colonies to do such wonderful work. We have long hours of sunlight and more actual sunshine than has any other province in Canada. Moose Jaw has 67 hours of sunshine out of every possible 100, and is second only to Lethbridge, which has 72 hours, according to the Federal government report. With these long hours of sunlight the bees are working from 12 to 14 hours per day during the honey flow.

Again, the climatic conditions generally seem most favorable for the secreting of the nectar in the bloom, and it remains in the flowers until late in the afternoon.

There is a long list of honey-producing plants in Saskatchewan: yellow mustard, sweet clover, golden rod, and scores of other wild flowers and shrubs. These furnish the bees with an abundance of nectar in any favorable season.

Another great reason for our big surplus honey flow is the condition of the colony when the flow starts. The real honey flow (Continued on page three)

# SPADE WORK THAT GETS THE TRADE

To get steady sales in satisfactory volume, you must build up confidence in your store and its service.

Advertising in The Chauvin Chronicle will lay the foundation of such confidence. Advertising does the spade work that leads to bigger sales. It will tell folks about your store, its service. It will tell them about the goods you have to offer.

Let your advertising in The Chauvin Chronicle be a standing invitation to the folks around here. As a rule,

## People Shop Where They Feel Welcome

## BEEKEEPING IN SASKATCHEWAN IS 'INCREASING FAST'

starts 'very late in this province, and thus the bees have built up very strongly, and have the hive full of workers at the right time. Our light honey flow during the early part of the season, which is usually only sufficient to rear a queen, is conducive to the making of strong colonies, as the queen is not restricted in her laying by the crowding of the brood chamber with honey. This factor sometimes works badly, and we find that sufficient honey is not coming in to carry on the brooding at the full limit; and the experienced beekeeper will feed at this time, which surely pays as the bees will give it back in increased returns.

The great majority of those who started with bees during the past five years in this province were without practical experience. No doubt this will have a detrimental effect on the industry, for some may quit in disgust, but this can be partially overcome through an educational campaign. Experienced bee-keepers in different parts of the province have reported upwards of 250 pounds of honey from a colony during a favorable season. I am convinced through correspondence with bee-keepers in all parts of Saskatchewan that bees can be kept successfully in every part of the province, though, of course, some parts are more adaptable than others.

Experience has proved that the 10 frame Standard hive is the most suitable for this province. It allows the bees to carry a good supply of honey in the brood

chamber to last them through the long winter and late spring.

Pure bred Italian bees are very gentle, prolific, vigorous, and good honey gatherers, and are becoming very popular in the west. The fear of the sting deters many from making a start with bees, but with a bee-veil, and a smoker, any person can handle bees, and will be surprised how gentle they become when handled gently.

### How To Start

There are many ways to make a start with bees. A good colony of Italian bees in a 10 frame hive costs in the spring about \$20, and during the season should give a good surplus of honey and about two colonies increase.

Another way is to purchase a nucleus, which is two or three frames of brood with bees thereon. This will not so good as the full colony will build up into a good colony by fall, and give a fair surplus of honey.

Another method of making a start with package bees. These can be purchased from bee-keepers in the Southern States early in the spring, and if possible should be placed in drawn combs upon their arrival and fed liberally on sugar syrup. If placed on foundation they may have difficulty in building it out into comb, on account of cold weather. To assist them in their work the hive should be wrapped with some protector in the early spring.

These package bees if procured in the latter part of April and properly fed and protected will build up into good colonies and give a good surplus. But it should be insisted that all package bees coming from the United States have no honey whatever in any form as food for their journey. Sugar candy is all that should be used, as there is a great danger of introducing disease if honey is used.

### Honey Market

"Saskatchewan has been importing about eight carloads of honey each year, but from present prospects we will soon be an exporting province of this most wholesome of all food products. The local conditions govern the price of honey in each district, but good extracted honey sells for 25c per pound in many districts of the province. I might say that Saskatchewan honey is of good quality and can compete against any that is imported.

### The Possibilities

"It is safe to say," states Dr. at least fifty carloads of good honey remains ungathered each year in Saskatchewan because the farmers generally have not as yet awakened to the possibilities of two good colonies of bees should give sufficient honey to supply any family for the whole year, taking the place of sugar upon the table and supplying the children with the most wholesome of all sweets. 1/4

### WHEAT POOL GROWS

More than 2,000 new members for the Alberta Wheat Pool joined during the past year according to reports made at the annual meeting of the pool held last week in Calgary. The present Board of Directors was re-elected, with H. W. Wood as President.

CHAUVIN. ALBERTA

## P. O. DEPARTMENT GIVES FAULTLESS SERVICE AND SHOWS YEARLY SURPLUS

The Post Office Department is the biggest single business in Can- reaching span and most intricate number of details to be looked after. The estimated number of letters, post cards, circulars, etc., carried in Canada's mails last year was 1,200,000 and the expenditure of the Post Office Department aggregated \$28,305, the 936.57, while the net revenue of the department was \$29,100, 491.92, showing a profit of \$794, 555.35. With the exception of 1915 and 1922, when there were deficits, the department has had a substantial surplus ever since 1902. This speaks well for the efficient management of the department and the ability of the civil servants who constitute its personnel.

There are about 12,300 post offices in the country, stretching from the farthest northern points to the United States border, and from the Atlantic Ocean to the Pacific. In each post office, there is a postmaster, but not all of these are permanent paid officials of the department, many running a post office in conjunction with another on a percentage or contract basis.

2,000,000 Dead Letters: Out of the 1,200,000,000 letters, etc., handled in 1924 by the department, some 2,000,000 went to the dead letter office as being undeliverable, and over \$120,000 was found by the department in undeliverable letters. Of this sum over \$19,000 was returned to the owners, the rest being deposited to the receiver general, owing to the fact that the letters containing the sums making this total could not be delivered and had no identity of the senders.

The inspection service of the Post Office Department is a big organization and during 1924 it received \$38,041 inquiries regarding lost and mistreated mail matter. Of these, 266,650 were satisfactorily adjusted.

Stamps are another big item. During the year stamps to the value of \$31,063,161.72 were sold. Post Office Services: The post

office services come under eight heads, as follows: communication by letter, post card, newspaper and circular; special delivery of letters; parcel post; insurance of parcel post; collect on delivery system; registration of letters; money orders and postal notes; and the post office savings bank.

Communication is a long word and in it is contained a long tale. By the post office one can communicate with almost any other person on earth, providing that the person's address is known. By agreement with other countries Canadian mails are carried everywhere, as mails from everywhere are carried to Canada. Some letters to obscure spots of the earth may be months on their journey, but all of that time they are in someone's care—someone is responsible to the extent that his position depends on the safe delivery of that letter.

Whether the letter is carried by boat, railroad, airplane, airship, dog team, packrail, horseback, in a wagon, an automobile, or prairie ox cart—and all of these methods may be used in the delivery of a single letter—that letter is bound to be delivered, except for act of God or incorrect addressing.

"Service" is Watchword: The volume of the world's mail matter is beyond comprehension, and hundreds of thousands of people are engaged in it. Almost every trade, profession and occupation in the category of trades and professions is used directly or indirectly in this great service—and all the way from the perspiring railway mail clerk, who sorts letters by the thousands into a multitude of bags, to the captain of a great liner carrying His Majesty's mails and the postmaster general, sitting at the head of a vast system, keeping tab on its complex ramifications, the watch word is service and co-operation.

The special delivery of letters is one of the post office specialties. It constitutes an extra rapid service for certain letters in which extra charge is paid. Such letters are sorted first, rushed on to the first available train, are sorted first at each junction point or seaport and when they reach the town of destination, are

delivered by special messenger.

Even at that, the special delivery letter does not get there with very much greater speed than the ordinary missive. The Post Office Department of modern times is an extremely efficient organization and the vast majority of letters posted are despatched on the next available train, or boat or other means of transportation, and all that the special delivery letter usually gains is an hour or two in delivery at the other end of the route.

A little paint, face or fence, works wonders.

#### ANOTHER PROBLEM IN EDUCATION

There are several of the local entrants for the recent grade eight examinations who now find themselves in this peculiar position. They have passed in each and every subject, but have failed to pass the examination as an whole.

The departmental ruling in this respect for this year in grade eight requires 34 marks for a pass in every subject, with an aggregate, or total of 250 marks in all.

The pupils referred to have obtained marks alright, but fall a few short of the total of 250 marks. In other words, without failing in any subject, they have failed in the whole examination.

This, if it was not so serious a matter, would be truly ridiculous. At least we would have expected the educational authorities to

#### ALBERTA IS FOURTH IN PRODUCTION

Commodities Produced In Canada in Year Over Three Billions

Canada produced a net value of \$3,651,000,000 in commodities in one year, according to a report just issued by the dominion bureau of statistics, as estimated on the basis of statistics compiled by its various branches.

This value was produced by approximately two-thirds of the gainfully employed persons in the

dominion, those engaged in the various kinds of "production" defined according to the usual acceptance of the term as including agriculture, forestry, fisheries, trapping, mining, and manufacturing. ect.

The value of \$3,651,000,000 in question, which covers 1923, represents an increase of 3.8 per cent over the previous year.

Ontario contributed 39.7 of the Canadian total; Quebec held second place, while Saskatchewan, Alberta, British Columbia and Manitoba followed in the order given.

Even the most successful dentist lives from hand to mouth.

#### IS ARRESTED

#### ON HIS RETURN FROM ENGLAND

Following his return on Tuesday from England where he has been for some time, T. H. Saul, formerly Secretary-Treasurer of the municipality of Ribstone, which centres around Chauvin, was arrested during the day by the Alberta provincial police at Chauvin. Saul is charged with theft by conversion of the sum of \$3,831, which was the property of the municipality. There are a number of different charges, each having to do with sums of money paid into the municipality.

This morning the accused appeared before Magistrate McLeod in the police court and his hearing was adjourned until tomorrow. He is being represented by H. H. Parlee K.C., while the case for the crown is in the hands of J. J. Fravelly of the attorney generals department.

The discovery that there was a serious shortage in the accounts of the municipality, which was revealed to the ratepayers a few weeks ago was the cause of considerable consternation as it was believed that the consequence would be largely increased taxes to make up the deficit. Claims have since been made on the bonding company for \$7,700 and it is said that some \$2,300 more will be secured from other sources to make up the reported shortage. The secretary-treasurer of the municipality is now H. N. Freeman, who was recently appointed and who has been approved by the department of municipal affairs.—Edmonton Journal.

Thomas Harker Saul, former secretary-treasurer of the municipality of Ribstone, which centres about Chauvin, was remanded for trial on five charges of theft when he appeared before Magistrate McLeod in the provincial police court Thursday afternoon.

The charges were laid against Saul as the result of the discovery of a large deficit on the books of the municipality by the auditor a few weeks ago. Saul was charged with conversion of sums amounting to \$3,831 to his own use at various times and was arrested on his return to Chauvin from England a few days ago.—Edmonton Journal.

Since the British cattle embargo was lifted on April 1st 1923, 158,859 head of cattle from Canada had been shipped to Great Britain up to May 31st last, and the estimated value to Canada of hteas exports is \$14,135,715.

It is announced by the provincial directors of the livestock and poultry pools in Alberta that their now attached to contracts, and taminium numbr ofsignatures are now attached to contracts, and steps will be taken at once to place the pools on a permanent basis.

## On The Road To Nelson

(1) A Canadian Pacific Lake Steamship plying between Nelson and Kaslo on the British Columbia lake district. (2) "The Canyon" near South Slokan on the Kootenay River. (3) Bonnington Falls. (4) "The Pool" near Nelson on the Kootenay Lakes, B.C.

On the road to Nelson, whether one enters from the east or west, new beauties charm the eye at every step. Murmuring pines and fir trees cast their shadows along sunny roads, while wayside flowers gladden the eye. Even in winter, it is equally picturesque, when snow crystals adorn the trees and shrubs, with flowery jewels, their shadows cast strange pictures across the soft snow covering the sleeping earth. For winter in the mountains of British Columbia is a season of joyous sport and out of door life!

Along the way, as the Kootenay makes its downward dash to the Columbia, appear falls and rapids. Two of these are utilized for electric power, by the West Kootenay Power and Light Company, which distributes power for three hundred miles, and the City of Nelson power company, which provides its citizens with heat and light and power from this source. Beyond another of these rapids is the famous fishing

ground, known as Slokan pool, where fishermen from all over the world have tried their luck through dark and sunny days. While the fishing may take time and patience, if the season or the bait is not just right, not so the scenery, for the beauty of the entire riverside may be seen from the window when passing between Nelson and Castlegar, whence two routes are provided to the Pacific coast.

—Mrs. W. Garand Foster.

### LOCAL HAPPENINGS

(Continued from page one)

Mr. and Mrs. MacDonald, of Winnipeg, are the guests of Mr. and Mrs. Harris. This week, they are spending their time with the Harris Brothers, on the farm at Prosperity.

Messrs Parcels and Harris have received a consignment of four separators and five tractors. Looks like a return to prosperity for the district.

Snag-Proof overalls are good. Special at Saker's this week for \$1.95 per pair.

Mr. E. A. Pitman, having over 500 acres of wheat to harvest this season, has invested in a new tractor.

Mr. P. H. Perry, secretary of the Chauvin Agricultural Society, has been busy sending out cheques covering the prize money won at the Chauvin Fair.

No danger of your not liking Bebe Daniels in "Dangerous Money" to be shown next Monday at Chauvin and Tuesday at Edgerton.

Local business conditions have been improving lately. This is due to the delivery of wheat pool payments and to the harvest prospects.

The Western Lumber Co., announce that they will handle the coal business this season, dealing in the same high grade coal as last year.

Miss Valeda Auclair and Miss Boyer of Montreal are visiting Mr. and Mrs. Boyer and other friends in the Chauvin district.

Mrs. Semple of Drinkwater, Sask. accompanied by her two little girls, is visiting her parents, Mr. and Mrs. L. Borregard.

You must run to win the race.

### CARD OF THANKS

Thanks are extended to those who so kindly helped to supply the music for the dance, given by the Chauvin Basket-Ball Girls.

THE CHAUVIN BASKETBALL GIRLS

### CARD OF THANKS

I take this opportunity of thanking my many friends for the business transacted with me in the last three months and I wish you all success in the years to come.

(signed) D. BISSETT

HEAVY WOOL SWEATER		
COATS, all sizes		2.65

Our Stock of Groceries is complete. The best in the district.

All kinds of Sweaters and Pullovers for Men and Boys

## Fruit

Owing to the erratic condition of markets prices fluctuate daily but you will find our prices are as low as the lowest and the quality is the best—only. Our first carload will arrive about September 4th, but there will be practically no Peaches or Prunes by that time.

REMEMBER, our store is the only store in Chauvin that has ever handled straight carloads of fruit. Therefore our values are unapproachable.

Prices this week (at time of giving to press) Guaranteed to be no higher while stock lasts.

PEACHES	per case	1.90
PRUNE PLUMS	per case	1.45
CUCUMBERS	per case	1.10
BLACKBERRIES	per case	3.25
RIPE TOMATOES	per basket	.45
FANCY PLUMS	per basket	.60

## THE NEW CONSERVATIVE LEADER IN ALBERTA

(Continued from page one)

politics with provincial affairs, regarding such a viewpoint, he said "If you were electing a body of directors for a private corporation that would be charged with the responsibility of handling vast sums of money, you would not be concerned with what their political leanings in Federal politics were, neither would you, I hope, in electing your city council be concerned about what their Federal politics were. In my submission," continued Mr. McGillivray, "the provincial legislature is nothing more than a glorified city council. The necessity for parties (if there be any such necessity) is, that a government may be formed from among those members of the legislature, whose common advocacy of given policies during the election, has most appealed to the people of the province."

Referring to the evils engendered by the injection of sectionalism into politics, whether of class, race, or religion, he fearlessly stated: "Whether I win or lose, I will never appeal to the people on the grounds of nationality, or creed. We have no quarrel with the U.F.A. as an organization," he continued, "but what we do object to is that an organization, which is capable of so much good, should by any little group of men be converted into a political machine. The farmers themselves should object to any particular class dominating them all."

Mr. McGillivray closed his address with a rallying call: "The time is ripe, our cause is just, let us go out and win," and the unanimity of the convention which followed the close of his stirring address bore witness to the pride of the assembled Conservatives in their new leader, and in his attitude towards the future of Conservatism in Alberta.

For the past nine years we have led all other towns of our district in school supplies at low prices. We have been selling the same scribbles and exercise books at 8 for 25c, that other towns have been costing the children 5c straight—being standard size 8 1/4 x 10 1/2 60 pages. It is only by buying these vast quantities we are able to do it. We have the assurance that our efforts are being appreciated by the quantity we are selling and we intend to continue giving you the same low price and even lower when paper prices get easier. Up to the present however, the best price we were ever able to give you on good regular 5c pencils was 6 for 25c. Now we are going to do better. We have bought enough pencils, computed at the rate at which H.B. lead wears or smooth paper and the number of school hours per year, to last one pupil two hundred and thirty-three years of school life. We of course got a good buy and are going to pass it on to you at 8 for 25c, or 3 dozen for \$1.00.

A full stock of all other school supplies and school books at prices just as low as possible. McKeehnies Drug and Stationery

A fashion writer says there are many good things about the latest styles in clothes. One particular good thing is, that you don't have to wear them, if you don't want to.

## SHEEP JUDGING DEMONSTRATION AND SALE AT LACOMBE

The Central Alberta Wool Growers' Association held a very successful sheep sale at Lacombe in October 1924. Twelve hundred and seventy-one pure bred rams and pure bred and grade ewes were sold for \$16,161.50. These sheep have since shown good returns to their owners that very numerous requests have been made to the Association for another sheep sale this fall, and it has been decided to hold a combined judging demonstration, show and sale at Lacombe on Wednesday, October 7th. In the forenoon a demonstration will be given on how to judge and select breeding rams and ewes, tell ages etc., and a show will be held of rams, ewes and lambs entered in the sale. The sheep will be sold in the afternoon.

Farmers wishing to buy sheep and farmers having sheep for sale should watch the press or write the Secretary, Mr. Jesse Fraser, Lacombe, Alberta, for further announcements.

## ASSIST BIG FLOUR MILL

Calgary citizens have carried a By-law to assist Spillers, Ltd. of England in the erection of a large flour milling industry in Calgary by providing a fixed assessment on the plant for a period of fifteen years.

The man who figures in an explosion usually begins at the bottom and goes up.

Two-fifths of Russia consists of forest land.

## ENTERTAIN AGRICULTURAL EDITORS

Plans are now being made by the cities of Calgary and Edmonton for the visit of the party of 100 agricultural editors from the United States who will visit Alberta in September. At Edmonton to the Board of Trade and the Provincial Government will unite in the plans for entertaining the party, which will include a drive about the district and a dinner in the evening. At Calgary plans are also being made for a special entertainment. The party represents a rural journals with a combined circulation of nearly ten million copies. 1/4

Professor A. M. Low left out one item in his recent prophecy of what will happen in the year 2925. He never mentioned how the people would look back regretfully to those good old times of 1925.

The question for each man to settle is not what he would do if he had means, time influence, and educational advantages; but what he will do with the things he has.

"What animal," said the teacher, "makes the nearest approach to man?"

"The flea," ventured the little boy with the curly hair.

"How long will it be before I can get a shave?" asked the youth.

"Well," said the barber, regarding his face, "you might be able to start in a year or so."

A dirty laid undone will disturb your peace of mind later."

## MAIL ORDER HOUSE BUSINESS IS DECLINING

The mail order business is declining. Toronto's two large houses which feature this trade, report this, and the conclusion has been reached that the day of the mail order house is "passing" says the Financial Post. Isn't this just in the natural order of events? Women do the greater percentage of the buying, and as they yearly become better shoppers they know that "seeing" is "knowing" the quality of the goods. Retail merchants in small and larger centers are trying to supply the demands of their prospective customers, and are buying with judgement and good taste so that their goods will compare favorably with city goods. True it is that one does not have so wide a range from which to choose, but this is altogether compensated for by the lack of confusion which is created by the sight altogether of too many similar articles. Of course city merchants know the great value of advertising as a seller of goods and are continuing to learn the value to them of the city dailies. However, town and village make their offers by means of advertising and they have held their

mighty customers by means of a continuous news service of their merchandise in the local newspapers. The merchant who does not tell his fellow citizens about the quality and price of the goods he has bought for their use is a man who is helping the mail order houses to continue their mail order business. These city merchants let us all know in detail of their bargains and their service. Do your business with the local merchants who are glad to serve you and are willing to tell the world the story of their merchandise through the local weekly.

## PRINCE MAY COME IN 1926

It is possible that the Prince of Wales will pay another visit to his ranch in Alberta in the fall of 1926, according to a statement made by his ranch manager, W. L. Carlyle.

## PERMANENT BOARD LIVESTOCK POOL

Election of directors for the permanent board of the Alberta Co-operative Livestock Producers, Ltd., formed one of the principal matters of business at the conference held at Edmonton last week and resulted as follows: District A: S. Sears, Nanton; District B: A. B. Claypool, Swallow; District C: A. McMillan, Tees; District D: J. P. Slattery, Camrose; District E: H. H. Stearns, Innisfree; District F: E. Bevington, Edmonton; District G: E. H. Keith, Lake Saskatchewan.

Oh, there's no unsightly garbage and our alley's spic and span, For we've carted off the rubbish And every bloomin' can.

Patient: "My head's like a lump of lead, my chest feels as if it's held in a vice, my insides as though torn by pinners. I've got pins and needles in my legs, and my neck is as stiff as a poker." Doctor: "H'm! Metallic poisoning."

### HARVEST MONEY

Over 75 extra men have been engaged in the Chauvin district the harvesting and it is estimated that at least another fifty men will be required as soon as threshing becomes general. Mr. Frank Fahner, agent for the Alberta government employment bureau has placed fifty of these men with local farmers.

Auto Strorp Utility Knife—use your old razor blades—makes an excellent knife, price 50c. McKeechie's Drug & Stationery

The Dominions are free States. Each is a daughter in her mother's house, and mistress in her own: Mr. Stanley Baldwin.

A flour milling company operating a plant at Lettbridge, Alberta, has plans prepared for a million bushel grain elevator.

Keep too many irons in the fire, and one of them will burn you.

We will pay the above: To anyone giving us the information leading to the conviction of the person or persons who are maliciously spreading false reports against the honesty of our store. We guarantee our weights, measures and quality of goods as advertised. These are the solid foundation upon which we have built up the biggest business in the district and we intend to protect ourselves irrespective of costs.

(Signed) J. A. SAKER.

If a woman wants a welcome when she returns home, she should leave her husband with the baby when she goes away.

### Here and There

The first batch of last winter's furs brought from the Far North by the steamer "Distributor," from Aklavik, has arrived at Edmonton, Alta., and is valued at approximately \$1,000,000. Good catches of furs were reported throughout the north.

Sockeye salmon fishing around Vancouver, B.C., for the first three weeks of the current season, while not as active as last year, has, so far, resulted in fairly good catches. The latest reports indicate a catch to date of 55,000 cases, which is 2,000 cases less than last year.

While the members of Dean Sinclair Laird's party of school teachers from Ontario is returning East from their tour of the country the party of British teachers, who landed in Canada recently, is now travelling through the West on a special Canadian Pacific train to gain knowledge of the country and information concerning its resources.

Construction of the half million dollar storage and power dam on the Muskeg River, authorized at its last session by the Ontario Legislature, has been commenced. The proposed work is designed to control the flow from the Muskeg Lakes basin and will enable the linking up of power development in that district with the Eugenia-Severn system.

Passenger traffic over Western Lines of the Canadian Pacific Railway to date this summer has been particularly heavy, and a large number of special train and special cars being operated for British, Canadian and American tourists. Lake side and summer tourist travel to the annual exhibition at Saskatoon and other Western points required the operation of special trains.

Construction of one of the largest and most modern departmental stores at Winnipeg, Man., by the Hudson's Bay Company will be proceeded with immediately, according to an announcement by Mayor Webb of that city. A start upon the company's building programme here was assured, stated Mayor Webb, with the passing of a by-law by the City Council providing for a memorial boulevard flanking the Hudson's Bay property.

During the first half of August two important Ontario railway towns celebrated their Old Home Week and held pageants illustrative of their local histories and industrial activities. These were North Bay and Smith Falls, both of which held C.P.R. Days and were the meeting points for thousands of railroad men, who assisted in the pioneering work of the districts. The Old Home Week at North Bay marked the graduation of that town to full-fledged cityhood.

The funeral in Montreal recently of the late G. M. Bosworth, chairman Canadian Pacific Steamships, was attended by E. W. Beatty, chairman and president of the Canadian Pacific Railway, and nearly all the directors and executive officers of the company. An impressive and dignified procession followed the ceremony, a cortège being formed by the company's police and officers and men from the crews of Canadian Pacific steamships.

A party of thirty prominent American society people, scientists and artists succeeded recently in blazing a new passage along the Wolverine pass across the northern Canadian Pacific Rockies with the Trail Riders of the Canadian Rockies. The Riders this year have many famous men among them and six separate countries are represented. Twenty of the members wear gold and enamel buttons, showing that they have ridden 2,500 miles along the mountain trails.

Wishes won't wash dishes.

It has been estimated that over one hundred and fifty thousand people attended the Calgary Stampede this year. A historical pageant more than five miles long was the opening feature of the jubilee.

With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October, according to figures from the Tourist and Convention Bureau of that city.

It is expected that when Hon. Honore Mercier, Minister of Lands and Forests, returns to Canada, a thorough organization of the aviation branch of the Quebec Lands and Forests Department will take place, to replace the present Province is to purchase several more hydroplanes, to be used for forestry research work, as well as for combating forest fires and other work.

Church dignitaries, statesmen and thousands of laymen congregated in ancient Quebec to be present at the wonderfully impressive ceremonies attendant upon the burial of the late Cardinal Begin. The Basilica, which has only recently been reconstructed and opened to the public, presented a scene of colorful beauty and majestic dignity while the profoundly sorrowful services were being recited.

At this year's Cross-country Ride and Pow-wow of the Trail Riders of the Canadian Rockies it is expected that approximately one hundred riders will cover a new trail which extends from Marble Canyon on the Banff-Windermere Road over the Wolverine Plateau and past Lake O'Hara to Hector, while between 250 and 800 are expected at the pow-wow near the Wapta Bungalow Camp. While out west Field Marshal Earl Haig signed on as a member of the Trail Riders.

On the occasion of the departure from England of a party of one hundred school-teachers on board the "Empress of Scotland" to visit Canada and study educational methods here, His Majesty the King sent the following message to the International Education League: "His Majesty congratulates the League upon the happy conception of the undertaking which will give opportunities to study the educational system in Canada and to gain an insight into her history, development and general resources."

That 69,000 harvesters would be required to handle this year's crop, of which the East would be expected to supply 50,000, was the estimate arrived at last week at a conference of various governments held in the Canadian Pacific offices at Winnipeg. In the meeting the Canadian Pacific Railway has taken all necessary steps to transport the army of harvesters. Their colonist cars and special equipment has been overhauled and the company is now fully prepared for its annual rush of harvesters.

George Morris Bosworth, Chairman of the Canadian Pacific Steamships, who died in London, England, on the morning of July 26th, from septic poisoning following an operation for appendicitis, was with the company almost from its inception. He was 68 years old when he died, joined the Canadian Pacific Railway in 1882 and was head of the steamship service for nearly seven years. When informed of Mr. Bosworth's death, E. W. Beatty, K.C., chairman and president of the company, stated that in his opinion Mr. Bosworth had had no equal in the country as a manager of railway traffic and added that "the company deeply regrets the departure of an old guard, whose ability and effort so largely contributed to the company's success."

There is a bright side to every thing: even to the trousers you topped wearing long ago.
